

A Glance at Viatriis in Europe

Viatriis is a global healthcare company whose mission is to empower people worldwide to live healthier at every stage of life by providing access to high-quality, trusted medicines, regardless of geography or circumstance.

We are **approximately 10,000** talented and dedicated individuals working in **38** countries across Europe.

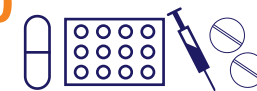

One third of our employees work in one of the **15 manufacturing, packaging and R&D sites**

We operate in Europe, across oral solid dose (OSD), injectables, active pharmaceutical ingredients (API), complex products and combination product device development.

Our European portfolio of more than **1,400** products

includes globally recognized brands, complex generic and branded medicines, and a variety of over-the-counter consumer products.

We produce and supply medicines for patients, across a **broad range of major therapeutic areas** such as,

Cardiovascular

Infectious disease

Oncology

Immunology

CNS and anesthesia

Women's healthcare

Diabetes and metabolism

Gastroenterology

Respiratory and allergy

Dermatology

We are building partnerships in the space of **non-communicable diseases (NCDs)**.

Viatriis is also a **key player** across the region in **thrombosis**.
